

Forecast For East of England  
Issued by Met Office Exeter  
at 0400 on Friday 27 Aug 2021

++ Valid for broadcast between 0600 and 1800

Headline:

Rather cloudy, best of the warm sunshine in the east.

Today:

Cloudy start, although some brighter spells possible in the east. Cloud breaking at times to give some warm sunny spells, mainly in the east. Thicker cloud persisting across many central and western parts, however. Feeling cooler near the coast. Maximum temperature 22 deg C (72 deg F).

Tonight:

Cloud breaking across southwestern parts, to give clear spells, and the odd patch of mist or fog. Cloud increasing across the north and east, however, with the odd shower possible. Minimum temperature 12 deg C (54 deg F).

Saturday:

Any isolated fog soon lifting, with variable cloud amounts and sunny spells following. Cloud could be thick enough to give the odd spot of rain at times. Breezy along coasts. Maximum temperature 21 deg C (70 deg F).

Outlook for Sunday to Tuesday:

Dry with sunny spells Sunday and Monday, once early morning fog clears. Mainly dry Tuesday, although thicker cloud could bring isolated light showers. Temperatures near normal, but cooler along coasts.
